My Dear Sir,

I received notice by mail of a package of plants having been sent from Pennsylvania for me to Lyon Shorb & Co St Louis. with a request that they be delivered to you. The letter was mailed March 20th ult. If you have had no notice of their arrival, please when convenient call for them, & send to Quincy as you have heretofore done –

If any expense on them, please inform me what it is & I will remit it by mail

Yours truly

S B Mead

P.S. Mr James Stark is expecting to go to St Louis next week & will call at Lyon & Co for whatever may be there for me, so that you may let the package remain till after next week unless you have a good chance to send to Quincy Ill without delay. Mr Stark expects to be in St Louis next Thursday 17th). inst & be there a day or two

My Dear Sir.

Mr Stark did not get the package for me at Messrs Lyon, Shorb & Co iron or Hard Ware Merchants of St Louis. The package I expected had not arrived, but he was informed that there was one at this house for me which had been there for several years, & said he would bring it down to the Store at the Landing. but he left before he had time to get it.

Will you please when convenient call for it & also the other one when it arrives & send when you have a good oppertunity to Quincy to H. Miers

Yours very truly

My Dear Sir,

Your letter of Ap. 25 ult is received to day in which you inform me of the arrival of the expected package for me. When Mr Stark was there one of the firm of Lyon, Shorb, & Co informed him that no package had lately arrived (at that time) but that there was one at his house for me & had been there some few years so that must be the package which I supposed was lost. Porter sent it by a son of Lyon if I recollect right from Pennsylvania, who promised him to leave with you.

If you did not receive that package which would make two with the one from McMinn, I would be glad if you would make enquiry about it & get it. I do not suppose there would be any freight on this one as Porter expected he would deliver it on his account I send enclosed the amount of freight you paid for me

I would like to receive any plants you can send me especially any of my desiderata given you sometime ago -

Yours very truly

S B Mead

Augusta Hancock Co Illinois June 4. 1851

My Dear Sir,

Your letter of May 28 ult is received. I sent in my letter of May 2d which you received $2.35 the amount paid on that package you sent me from Lyon, Shorb & Co. I suppose it was received tho' you did not name it.

Mr James Stark Merchant of this place in March or about the 1st of April, ult. called at the firm of Lyon Shorb & Co to enquire for that package you sent, but had not then reached St Louis. Mr Stark was informed by some Gentleman at that firm, that no package for me had been recently received for me, but that there was one at his house & had been there for several years which must be the package which Rev T. C. Porter sent me. I have looked over his letters & I find he (Thos C. Porter) writes in his letter to me of Sept 27 1847. that he had an opportunity of sending for me to St Louis Mo a package by a friend of his, J. Calhoun Stewart, who resided there. & he requested him to leave the parcel with Dr Engelmann (but he probably forgot it)

He also wrote that this friend of his was a son of one of the firm of Lyon, Shorb & Co. Iron dealers. He further informed me that his letters were directed to the care of Mr Alfred Vinton. St Louis.

The cause of Mr Stark not then getting the package was, that he left sooner than he expected. The Gentleman who informed him of the package, promised to bring it down to the Store for him.

If you can conveniently call again at Lyon, Shorb & Co please give them the above information, as I would like to get the parcel.

I wrote a letter of enquiring for this package to this firm afterwards but could hear nothing from them. I will write again directing the letter to your care.

Yours very truly

My Dear Sir,

I received by mail today a letter from Dr Short, informing me of his sending to your care a parcel of plants for me. You may leave in care of Mr Meier Hard Ware Merchant St Louis & his brother in Quincy Illinois will take charge of it for me when he has things sent to him, so that I will get it after a while.

Perhaps you have some things to send me which I might get at the same time.

In your letter sometime ago you speak of sending me some things from Lindheimer's last collection

Perhaps you may have some more European plants to spare —

Yours very truly

Rec^d - May 13

Augusta Hancock C^o Illinois May 7. 1852

My Dear Sir,

Mr Hermann H Meier of Quincy wished me to inform you concerning the Herbarium of the late Dr Woebeken as I was somewhat acquainted with it. I made some exchanges with him & looked over his Herbarium for the purpose of selecting such species as I had not already received before.

The plants are in paper 12 inches long & 7 or 8 inches wide they are small specimens, mostly European.

I suppose there must be over 1000 species perhaps more. They are put in bundles arranged according to the artificial classes of Linneus. There are duplicates of several species. I think they are correctly named I exchanged some 400 or 500 species with him. which would probably increase the whole number that much

Most of the specimens are in good order, tho' some are injured by insects, but they are small & not such beautifully preserved plants as you have from Lindheimer, Fendler &c

I do not suppose there is any thing new to you among them.

As to the price or value I do not know what it ought to be, you are a better judge of that than I am, if you should see them, I advised Mr Meier to take one or two bundles of them to you so that you could examine them

He expects some goods up to Quincy the beginning of the week, when I would probably get my bundle from you

Yours very truly

My Dear Sir,

I received to day your letter of Dec 1st inst. I have had no opportunity to send to Quincy yet. the travelling has been so bad. but Mr Skinner merchant of this place went to St Louis about the date of your letter & I requested him to call for the parcel at A. Meier & bring it me if it was still there. I expect I can get it from Quincy as soon as the mud dries up.

I received your pamphlet on Cacti &c on which 2 cts postage was prepaid. I now enclose the amount prepaid. & when you have any papers or pamphlets please prepay the postage & when I acknowledge the receipt of them I will remit the amount prepaid My letters under half ounce come free -

Did Fendler collect any thing at the Isthmus?

Have you any specimens of Wright's plants to spare? If I could select such as I have not I would like to purchase - such as Lindheimer can not send me.

Thank you for the pamphlets

My Dear Sir.

I received a letter sometime ago from Dr. Hale informing me, that he put on board the Steamer Winslow (Nov 1st) a small box of Plants directed to me "Care of Dr George Engelmann St Louis. Mo". I suppose you have received it before this as the Rivers navigation is closed, you will not have an opportunity to send till the river navigation commences in the Spring, you may then send, when a good chance offers to Quincy Illinois — If left with Coates, Hedges. & co Quincy. I would get it —

Perhaps you may have some specimens to send — I would like to see the Geological Reports of the State of Missouri if you could get a copy sent me, without much trouble.

I collected a few specimens last season of Fraxinus quadrangulata, growing about 10 miles from this place

Yours very truly.

My Dear Sir,

Your letter of 15th inst is received. I enclose one dollar (gold). I shall be glad to see the addition of Western plants to Dr Hales. It will be better not to send the plants to Quincy till March when the navigation commences again

Mr Lapham wrote me about Illinois Plants which I have answered

Would like a copy of the Missouri Geological Report

I have no specimens of the following European Carices of Tuckerman Enumeratio

Carex gynocrates Wormsk, C. pyrenaica, C. microglochin, C. obtusata
C. rupestris, C. brizoides, C. Boenninghauseniana, C. microstachya C. Gaudiana
C. gryphos. C. bracteosa, C. Cirrhyncha, C. nitolkia, C. appressa, C. echinochloe, C. Indica
C. filicina, C. myosurus, C. gracilis C. divisa, C. schoenoides, C. physodes, C. fetida
C. axillaris, C. loliacea, C. hypperborea, C. perryana, C. clavaeformis. C. hematolepis
C. laxa; C. holostoma, C. nigra, C. aterrima, C. magellanica C. Mertensii, C. ustulata.
C. oxiophora, C. cruenta, C. frigida, C. fuliginosa, C. Franklinii, C. ferruginea C. fusiformis
C. Ecklonii C. punctata, C. diluta, C. retundata, C. Houghtonii C. melanostachya
C. cilinea C. evoluta. C. Grioletti, C. globularis C. macrolepis C. approximata C. Schkuhriana
C. complanata C. Brownii C. pedata, C. pediformis &c Perhaps you may have some of them

You sent me grasses, but I have no specimens of the following European grasses from Loudons Encyclopedia

Lygeum spartum, Cornucopiae, Pennisetum, Paspalum, Axonopus. Milium paradoxum & cerulescens & frutescens, Knappia, Digitaria, Panicum, Setaria verticillata &c
Orthopogon undulatifolius, Penicillaria. Stipa. Gastridium muticum Agrostis verticillata & Calamagrostis Trichodium setaceum, Tristegis, Sporobolus, Crypsis schenoides, Alopecurus bulbosus A. nigricans Phleum felinum Achnodonton. Chilochloa Boehmeri, Phalaris cerulescens, bulbosa & semineutra, Aira levigata, media, pulchella. Avena brevis, orientalis, nuda, sterilis Trisetum striatum, planiculm & loeflingianum, Arundo stricta, sylvatica Chrysurus aureus, Sesleria, tenella & sphaerocephala Koeleria hispida & tuberosa, pubescens, Dactylis, Festuca, Bromus. Schismus, Melica bauhini, pyramidalis
Poa, Leptochloa, Cynodon linearis, Dinebra, Triticum compositum, polonicum, monococcum T. squarrosum, rigidum, cristatum, Zea & elongatum Lolium tenue, Elymus, Hordeum zeocriton, Ophiurus, Microchloa, Monerma Perotis, Heteropogon, Olyra

You sent me grasses before, but perhaps you have some more.

Yours truly

My Dear Sir.

I owe an apology for not writing before, I had been my intention to write you every week until now; but one thing & another has prevented me.

I am under obligations to you for your Cactaceae in the U. S. & Mexican Boundary Survey also for a No of the Transactions of the Academy of Nat. Science St Louis. containing your arrangement of ~~Cudutae~~ Cuscutae. which I was glad to see.

Have Lindheimer's plants & Fendler's been determined yet, beyond the Compositae?

I was not aware that you had returned from Europe till I saw the publications you was so kind as to send me.

Before you left for Europe you wrote about sending me some more Yellow Stone &c plants collected by Mr Hayden &c also some European Grasses Have you got them still? Could I get from you any more plants in exchange for others growing here? Have you any Carices. &c &c

I would be pleased to hear from you at any time you find it convenient to write.

I remain yours

My Dear Sir,

Your letter a year or more ago was received in due course of mail. But I have been trying to get hold of the Pacific Rail Road Report. I have not yet succeeded, tho' I now have the promise of one Volume of the Botany. From your letter however I conclude that it will be difficult to decide some of the plants as they are so mixed up with other collections. It is not in my way to visit Dr Torrey or Dr Gray, so as to get access to their Herbarium.

I should like very much to get the authentic names of those I have of Fendler, Lindheimer, & Gordon &c. If you could possibly help me to their true names, I should feel under great obligation to you.

I am no longer P.M. As to the Oaks, I have not met with anything new lately.

I received a few plants new to me from Dr Vasey. Bell. Hale &c

Yours very truly

My Dear Sir

, Several years ago I sent a parcel of Carices to your care when you went to Europe for Boekeler & I have never heard any thing from them. Has he not published something on the Cyperaceae? I hoped to get a few European Carices for them. Have you any which I could get some specie which I have not, or some European gramineae? Any of which I have no specimens I would be glad to obtain for others I may have or may collect here.

Mead

I would like to fill up the gaps in my Herbarium of the U. States plants I would like to obtain a few from the Southern States in Exchange if there ar any Botanists wishing to get others from this region. Do you know of any one in Louisiana, Mississippi, alabama. Tennessee. or Georgio with who I could exchange a few?. I do not know what has become of the Bo Botanist in the South.

Mr Hall writes me he expects to leave early in May for Oregon. Could I get the California carices from any one?.

I do not collect much now only in my immediate vicinity.

I have not attended much to my Botany lately. but have now more leisure & am reviewing my Herbarium.

Yours very truly
